keynote Speaker

Prof. Dr. Osman Hayran

Istanbul Medipol University Faculty of Medicine, Turkey

He retired from Marmara University at the end of 2007 and started to work as the founder Dean of the Yeditepe University School of Health Sciences. After the establishment of this faculty, he served as its dean until 2013. He is currently working as the head of the Department of Public Health at Istanbul Medipol University Faculty of Medicine and also Director of Healthcare Systems and Policies Research Center at the same university. He has many scientific articles published in various local and foreign journals, congress papers and books.

keynote Speaker

Prof. Yu-Chuan Jack Li

Taipei Medical University

President of the International Medical Informatics Association

Yu-Chuan Jack Li is a leading expert in AI in medicine and translational biomedical informatics, ranked in the top 2% of scientists worldwide. He has been actively involved in international collaborations and has led numerous national projects focused on advancing the use of AI in disease prevention, patient safety, and "earlier medicine". Li's research on temporal phenomic stochastic models has evolved into the largest model ever constructed based on medical data elements.
